

K-Love provides me details about all of the local community events in my area where I would otherwise have no idea.

If KLOVE were to be displaced, my community would not have any means to commune and invite each other to their events. Also, we do not have ANY OTHER commercial free faith based station to listen to. We would be deeply impacted as KLOVE helps strengthen my faith and the faith of those around me.

My children listen to KLOVE and without it, they would not know or hear any positive examples while we are in the car.
